

SERVICE CENTER VALVE AUTOMATION & REPAIR

When You Need a Valve Fast

You can't afford downtime. That's why the DeZURIK Service Center is here for you with fast service. Whether you need a valve off the shelf or assembled to order – in weeks, days or hours – we'll do our very best to keep you running.

Service means on-demand inventory of:

- Rotary Control Valves
- V-Port Ball Valves
- HP butterfly Valves
- Knife Gate Valves

Remanufactured to OEM Specifications

You can rely on DeZURIK and the Service Center to remanufacture and recondition valves, actuators and consistency transmitters to our own OEM specifications. We're so confident in our work that we cover all remanufactured and reconditioned equipment with a two-year new valve warranty.

Scheduled Maintenance

DeZURIK can schedule a customized preventative maintenance program developed specifically for your needs. Our team of Field Service Technicians perform the preventative maintenance required during a scheduled shutdown.

DeZURIK Service Capabilities Include

- Benchmark™ Valve Diagnostic Testing
- Emergency overnight service
- Disassembly, inspection and quotation
- On-site scheduled maintenance
- OEM seat and hydro testing to industry standards
- Access to OEM bills of material is your assurance of correct parts replacement
- Sandblasting/cleaning parts
- Replacement of all parts required to bring valves back to OEM specifications
- Paint and attach - St-Stl valve tag

The Remanufacturing Process

1. Factory-trained technicians disassemble and inspect valves before an estimate is provided.
2. We thoroughly sandblast and clean every valve prior to remanufacturing.
3. DeZURIK reconditions/remanufactures each valve according to our own strict OEM specifications.
4. Our technicians operationally test and adjust each valve before delivery, to verify performance characteristics for your operating conditions.
