

## Valves for Compliance with The Buy American (BAA) Act

DeZURIK, your trusted source for quality valves, is committed to delivering DeZURIK/APCO/Hilton and Willamette products that comply with Buy American Act provisions for Federal Agency contracts on government and public buildings, public works projects, office buildings, schools, universities, plants, dams, pump stations, levees, canals, airports, terminals, subways and tunnels.

DeZURIK valves can be specified to meet Buy American Act provisions for projects involving

- Federal Acquisition Regulations (FAR),
- Defense Federal Acquisition Regulations (DFAR),
- Department of Defense (DOD),
- Department of Energy (DOE),
- Federal Transit Administration (FTA) 49 CFR 661,
- And other federally funded projects.

DeZURIK has close relationships with a network of US-based vendors throughout our supply chain that provide BAA compliant castings and components.

DeZURIK products available to meet BAA provisions include:

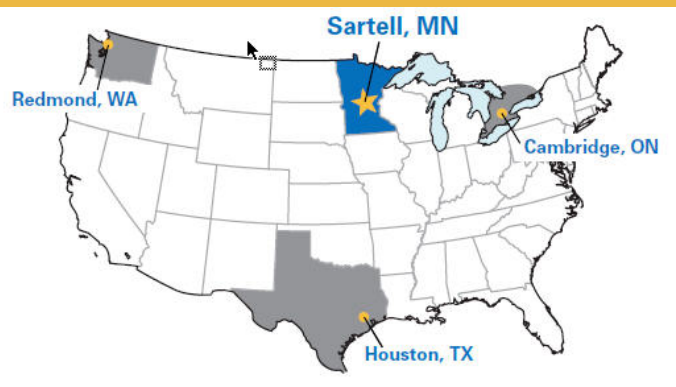

- DeZURIK High Performance Butterfly Valves (BHP)
- DeZURIK Eccentric Plug Valves (PEC and PEF)
- DeZURIK 3-Way & 4-Way Plug Valves (PTW/PFW)
- DeZURIK AWWA Butterfly Valves (BAW)
- Hilton Fabricated Knife Gate Valves
- APCO Check Valves
- APCO Air Valves
- Willamette Ball & Cone Valves
- DeZURIK VPB V-Port Ball Valves and RCV Rotary Control Valves

DeZURIK's BAA designation must be specified in the order code at the time of quotation and ordering to ensure compliance is maintained throughout the manufacturing process. DeZURIK will provide appropriate documentation for compliance.

Headquartered in Minnesota, DeZURIK operates manufacturing plants in three US locations: Sartell, Minnesota; Redmond, Washington; and Houston, Texas.

**Our Mission:**

**We advance the human condition by applying our exceptional flow control expertise to the development of vital water and industrial infrastructure.**
