

DeZURIK Build, Invoice & Store Program

In the event that you are not ready to receive valves at the time of shipment, DeZURIK offers a “Build, Invoice & Store Program” for your convenience. This service allows valves to be built and ready for shipment whenever the project site is ready for installation.

Valves are stored indoors in a temperature controlled warehouse. Storage arrangements can be made for any size of order and any length of time.

Depending on length of storage required or customer specifications, completed product is packaged and stored in accordance with DeZURIK’s “Recommended Long & Short Term Storage Procedure,” Form 1454 Rev A.

For more information or to receive a Build, Invoice & Store quotation for a specific order, please contact the DeZURIK Project Management Team.
