

Valves for Compliance with The American Iron and Steel (AIS) Act

DeZURIK, your trusted source for quality valves, is committed to delivering products that comply with all AIS provisions. DeZURIK/APCO/Hilton and Willamette valves can be specified to meet provisions of H.R. 3547, the Consolidated Appropriations Act, for projects involving Clean Water State Revolving Funds (CWSRF) or Drinking Water State Revolving Funds (DWSRF). This requirement applies to projects for the construction, alteration, maintenance, or repair of a public water system or treatment works.

DeZURIK has close relationships with a network of US-based vendors throughout our supply chain that provide AIS compliant castings and components. DeZURIK products available to meet AIS provisions include:

- DeZURIK Eccentric Plug Valves (PEC and PEF)
- DeZURIK AWWA Butterfly Valves (BAW)
- DeZURIK 3-Way & 4-Way Plug Valves (PTW/PFW)
- DeZURIK High Performance Butterfly Valves (BHP)
- Hilton Fabricated Knife Gate Valves
- APCO Air Valves and Check Valves
- Willamette Ball & Cone Valves
- DeZURIK Bi-Directional Cast Stainless Steel Knife Gate Valves (KGC-BD)
- DeZURIK Iron Body Knife Gate Valves (KGI)
- DeZURIK VPB V-Port Ball Valves and RCV Rotary Control Valves

DeZURIK's AIS designation must be specified in the order code at the time of quotation and ordering to ensure AIS compliance is maintained throughout the manufacturing process. When AIS valve products are ordered, DeZURIK will provide a certification letter that meets EPA documentation requirements.

DeZURIK has a large supply of valves that meet AIS requirements in our factory and representative stocking programs.

The Bipartisan Infrastructure Law of 2021 made the AIS provision permanent for Drinking Water State Revolving Fund (DWSRF) projects. Clean Water State Revolving Fund (CWSRF) and Water Infrastructure Finance and Innovation Act (WIFIA) have had permanent AIS provisions since 2014.

Therefore, the AIS provision is a permanent requirement for all State Revolving Fund (SRF) and WIFIA projects.

For details see US EPA presentation:

[Clean Water State Revolving Funds and the Bipartisan Infrastructure Law](#)

Headquartered in Minnesota, DeZURIK operates manufacturing plants in three US locations: Sartell, Minnesota; Redmond, Washington; and Houston, Texas.

DeZURIK Corporate Headquarters and Manufacturing Facility, Sartell, MN, USA

DeZURIK, Redmond, WA, USA

Rapid Fulfillment Center, Houston, TX, USA

Our Mission: We advance the human condition by applying our exceptional flow control expertise to the development of vital water and industrial infrastructure.
