

DeZURIK CAPABILITIES & SERVICES

World-Class Products

The Eccentric Plug Valve may have put DeZURIK on the map, but our journey didn't stop there. Today, we design and manufacture more than 70 valve styles—more than any other manufacturer serving the water treatment, sewage treatment, water distribution, pulp and paper, chemical, mining, power, hydropower, oil and gas downstream, and other process industries. In addition to the iconic Eccentric Plug Valve, our portfolio includes industry-leading Knife Gate Valves, High-Performance Butterfly Valves, AWWA Butterfly Valves, V-Port Ball Valves, and Rotary Control Valves. With more than 100 patents to our name and counting, DeZURIK remains at the forefront of valve innovation.

INNOVATION

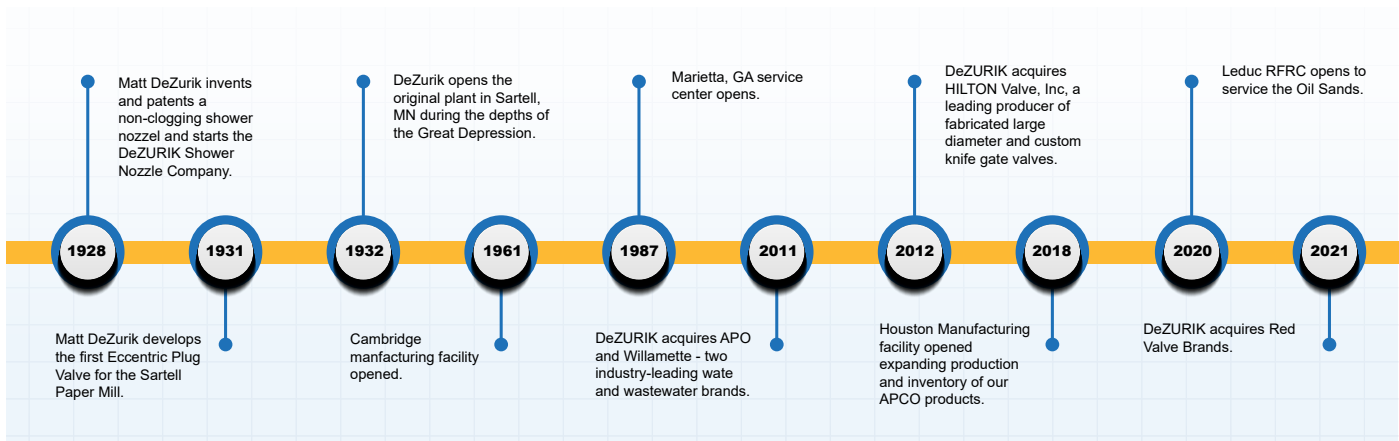

Founded on Innovation

In 1928, Matt DeZurik revolutionized valve design by inventing the Eccentric Plug Valve. His goal was to solve an operational challenge at a local paper mill in Sartell, Minnesota. Today, more than 90 years later, that same innovative spirit and problem-solving mindset remain at the heart of DeZURIK. What began as a single invention has evolved into a world-class valve manufacturing company known for delivering innovative solutions across a variety of industries.

Strategic Acquisitions for Growth

Strategic acquisitions have fueled our growth and expanded our capabilities. In 2011, we acquired APCO and Willamette, adding Air Release Valves, Check Valves, AWWA Ball Valves, and Cone Valves to our product lineup. In 2012, we acquired HILTON Valve, a leader in large-diameter and custom knife gate valves. Most recently, in 2021, we welcomed Red Valve, TideFlex, and RKL to the DeZURIK family, solidifying our position as the largest manufacturer of pinch and check valves globally.

Industries Proudly Served

DeZURIK proudly provides valve solutions to meet the needs of a wide variety of industries including:

1. Wastewater
2. Water
3. Pulp & Paper
4. Mining
5. Energy-Power
6. Hydropower
7. Chemical
8. Oil & Gas
9. General Industry, Food & Beverage, HVAC

DeZURIK's Legacy: The Blueprint for Future Success

Today, DeZURIK proudly employs more than 700 skilled professionals worldwide, each committed to delivering superior solutions that exceed customer expectations. Our legacy of innovation continues to shape industries and redefine what's possible in valve manufacturing.

RELIABILITY

Our Mission

We advance the human condition by applying our exceptional flow control expertise to the development of vital water and industrial infrastructure.

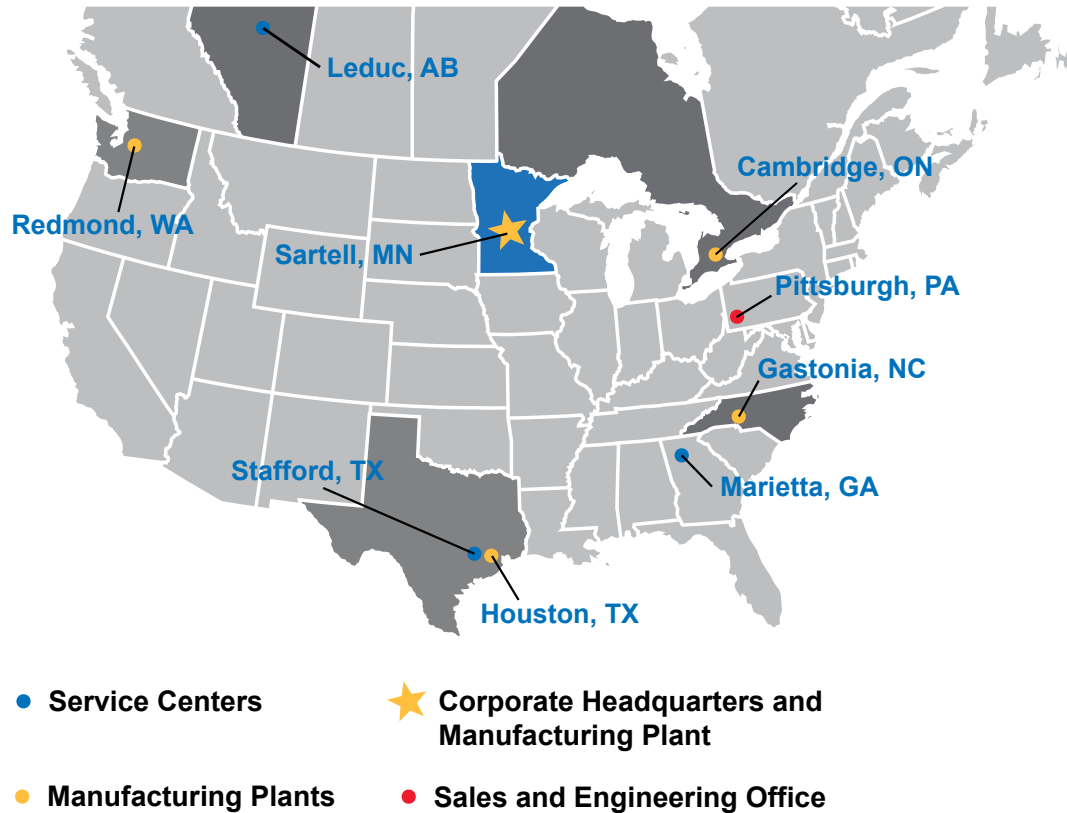

Our Vision

Be the preferred flow control partner to the world's foremost developers of vital water and industrial infrastructure.

Together, we accomplish our vision:

- By applying our flow expertise through a broad portfolio of engineered valve solutions
- By delivering superior product performance built on quality designs and manufacturing
- By providing best in class customer service
- Through outstanding effort and skills of our dedicated employees
- By effectively serving our customers, partners, employees, communities and other stakeholders.

DeZURIK Facilities

State-of-the-Art Facilities

DeZURIK operates five state-of-the-art facilities across North America. Our Sartell, Minnesota headquarters is home to our largest manufacturing plant. Our Cambridge, Ontario facility focuses on cast knife gate valves, while Redmond, Washington specializes in custom-fabricated Hilton products. In Houston, Texas, our Rapid Fulfillment Center ensures timely delivery of air and check valves. Finally, our Gastonia, North Carolina plant produces Red Valve, TideFlex, and RKL brand products.

The DeZURIK Difference

We call it “The DeZURIK Difference”—a promise that every product we deliver meets the highest standards of excellence. From initial engineering to rigorous product testing and seamless final installation, our commitment to quality is embedded in every step of the process.

Delivering Innovative Solutions for Every Challenge

Equipped with advanced manufacturing tools and cutting-edge technologies, our state-of-the-art facilities—and the skilled engineers and craftsmen who power them—are ready to tackle the most complex application challenges. With the capability to produce more than 145,000 valves annually, ranging from ½ inch to an impressive 14 feet in size and weighing up to 70 tons, DeZURIK is unmatched in capacity and precision.

Innovative tools like Finite Element Analysis (FEA), 3D Rapid Prototyping, and Computational Fluid Dynamics (CFD) have revolutionized our design and production processes, ensuring our valves deliver unmatched performance and durability. At our Sartell facility, our in-house testing laboratory further guarantees superior product reliability and operational excellence.

DeZURIK's Expertise: Mastering Large-Valve Manufacturing

DeZURIK has a long history of manufacturing large valves. DeZURIK routinely manufactures cast Eccentric Plug Valves to 72", knife gate valves to 48", custom-fabricated jet flow gate valves to 78" and throttling knife gate valves up to 96". DeZURIK also built the largest resilient seated butterfly valve ever built in the United States – a 168" AWWA butterfly valve weighing 139,000 pounds and measuring 21 feet wide (including the actuator) and 17 feet tall.

Core Values

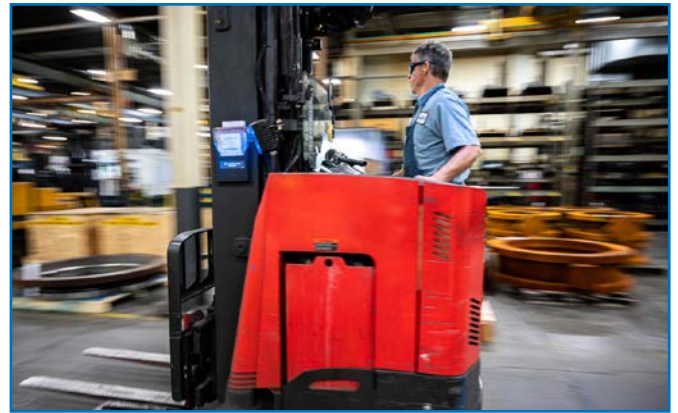

We achieve our mission and vision through a culture defined by collaboration, humility, and determination. Our high-power, low-ego approach, paired with a can-do attitude, empowers us to thrive together. At DeZURIK, we don't just aim to succeed—we're driven to win right.

OUR VALUES

Dedicated to Quality & Performance

DeZURIK's dedication to quality is reinforced by our ISO 9001-2015 certification across all manufacturing locations, reflecting a commitment to continuous improvement and exceptional performance standards. The DeZURIK Difference is more than a promise—it's the driving force behind every product we create.

Exceeding Expectations: The Key to Our Success

The success of our company is built on the remarkable contributions of our exceptional employees and trusted representatives. Their dedication, expertise, and unwavering commitment to excellence fuel our growth and innovation. We take pride in their ability to consistently deliver outstanding results, exceed expectations, and uphold our mission to provide superior solutions. Together, they are the driving force behind our achievements and the trusted partners in our journey toward continued success.
